

MONIKA SM

Date of birth: 10/11/2001 | **Place of birth:** Bengaluru, India | **Nationality:** Indian |

Address: Banashankari, Bengaluru, Karnataka, India, 560065, Bengaluru, India (Home)

ABOUT ME

Full-stack Software Developer at Conceptia Software Technologies, promoted twice within 11 months (Trainee → Associate Software Engineer → Junior Software Developer) and a 2× Spotlight Award winner for delivery on business-critical systems. Builds production features across Python/Django and React/Node ecosystems — role-based enterprise portals, an AI candidate-ranking platform, and an XML-to-PDF publishing pipeline — and ships AI-integrated side projects (RAG assistants, multi-LLM chat, payment orchestration) spanning Spring Boot, FastAPI, and AWS/Docker/Kubernetes.

WORK EXPERIENCE

JUNIOR SOFTWARE DEVELOPER – CONCEPTIA SOFTWARE TECHNOLOGIES – 07/04/2025 – Current – BENGALURU, INDIA

Junior Software Developer — Conceptia Software Technologies(promoted)

Mar 2026 – Present · Bengaluru, India

- Promoted to Junior Software Developer after sustained delivery on mission-critical systems; awarded 2× Spotlight Award for outstanding performance.
- Lead full-stack module architecture using Python (Django), Django REST Framework, React, TypeScript, and PostgreSQL/SQL.
- Architected role-based authentication and authorization (RBAC) with multi-tiered permissions across Admin, Manager, and Employee roles.
- Own core modules of the IETM (Interactive Electronic Technical Manual) platform: content hierarchy, version control, publishing/review workflows, 3D viewer integration, and interactive procedure pages.
- Built and maintain the automated XML-to-PDF generation pipeline — custom templates, embedded media, bookmarks, and fast search indexing.
- Run code reviews, mentor teammates, resolve production issues, and maintain CI/CD release pipelines (GitHub Actions).

Associate Software Engineer — Conceptia Software Technologies(permanent, converted early)

Jul 2025 – Mar 2026 · Bengaluru, India

- Converted to a permanent role after 3 months (of a 6-month traineeship) based on performance.
- Delivered backend REST APIs, schema migrations, and business logic in Django/DRF.
- Built the Annual Rewards & Recognition platform: nomination workflows, award-eligibility rules, admin approvals, bulk Excel import, and automated certificate PDF generation.
- Built responsive, accessible dashboards and UI with React, HTML5, CSS3, and Bootstrap.
- Optimized database queries and managed Git-based release workflows.

Trainee Software Developer — Conceptia Software Technologies(6-month program)

Apr 2025 – Jul 2025 · Bengaluru, India

- Completed an intensive full-stack traineeship, converted to a permanent role within 3 months on merit.
- Learned enterprise fundamentals: Python/Django architecture, MVC patterns, REST APIs, SQL, and modern JavaScript.
- Built hands-on CRUD web modules following clean-code and documentation standards.

PROJECTS – BENGALURU, INDIA

SettleFlow — Payment Orchestration & Reconciliation Engine

- Enterprise-style payment platform with real-time circuit breakers, multi-PSP failover routing, and automated reconciliation audit logs.
- Stack: Java 17, Spring Boot 3.3, Next.js 14, PostgreSQL, MongoDB, Docker, Kubernetes, CI/CD.

SigmaGPT — Multi-Model AI Chat Assistant

- Production chat app with real-time streaming and a multi-LLM router (Llama 3.3 70B, Qwen 2.5, Gemini 1.5, GPT-4o-mini via Groq).
- Stack: React 19, Node.js, Express, MongoDB Atlas, AWS EC2, GitHub Actions CI/CD. Live: moni-sigmagpt.duckdns.org.

Team Compass — Dev Portal & AI Knowledge Assistant

- Internal onboarding hub with a searchable directory, project ownership matrix, and a Claude 3.5 Sonnet RAG assistant.

•Stack: Django 5.0, React 19, TypeScript, Tailwind CSS v4, PostgreSQL, Vite.
Voice-to-Task — AI Voice Assistant
•Records and transcribes speech, structures it into tasks with Google Gemini AI, and exports a PDF summary.
•Stack: FastAPI (Python), Google Gemini AI, React (Vite), Tailwind CSS, FPDF2. Live: voice-to-task-vert.vercel.app.

● **EDUCATION AND TRAINING**

20/02/2023 – 24/02/2024 Bengaluru
MASTERS OF COMPUTER APPLICATIONS Maharani Cluster University

The programme covered core areas of computer applications including data structures and algorithms, database management systems, and software engineering principles. It also included application and web development, covering both front-end and back-end technologies, along with computer networks and operating systems fundamentals. Additionally, the curriculum addressed software project management, object-oriented programming concepts, and an introduction to emerging areas such as data analytics and cloud computing.

Level in EQF EQF level 7

● **SKILLS**

identify customer's needs | computer equipment | perform project management | communicate professionally with colleagues in other fields | prepare presentation material | database | database management systems | unstructured data | cloud technologies | office software | develop strategy to solve problems | establish daily priorities | apply strategic thinking | English | create solutions to problems | develop creative ideas | cooperate with colleagues | address problems critically | work in an international environment | think creatively | think analytically | work in teams | prioritise tasks | use online communication tools | work as a team | work analytically | engineering processes | project management | show confidence | use online tools to collaborate | use microsoft office

● **DIGITAL SKILLS TEST RESULTS**

 Information and data literacy	ADVANCED	Level 6 / 6
 Communication and collaboration	ADVANCED	Level 6 / 6
 Digital content creation	ADVANCED	Level 6 / 6
 Safety	ADVANCED	Level 6 / 6
 Problem solving	ADVANCED	Level 6 / 6

● **LANGUAGE SKILLS**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C2	C1	C1	C2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● **HOBBIES AND INTERESTS**

Reading books

Reading is one of my core hobbies. I enjoy diving into books that challenge my thinking, broaden my knowledge, and offer new insights into the world. It keeps me intellectually curious and constantly growing.

Trekking

Love exploring outdoor trails and mountains, which keeps me physically fit, resilient, and connected with nature.
